**Legend**

**Allowable IR Operator List**

**Definition**

<b>Country</b>	The destination or location where the indicated carrier operates
<b>Network Operator</b>	The roaming partner network name  D= the default RP only available in this geographic location. P = the primary preferred roaming network provider for which the traffic will be initially steered to. N = the non-preferred roaming network provider meaning that for any reason the primary preferred roaming network provider is not available, the traffic will be steered towards the next available. F = the roaming network provider has been set to Forbidden. This means that traffic will be steered away from the given RP.
<b>Network Type</b>	
<b>MCC</b>	Mobile Country Code
<b>MNC</b>	Mobile Network Code
<b>MCC/MNC</b>	These codes are used to identify the country and network codes on mobile telecommunications for GSM, LTE, CDMA, or UMTS communications.
<b>VoLTE</b>	Indicates for the destination whether VoLTE (4G voice) is available for this network operator.
<b>E-Call type (for Outbound)</b>	Indicates for the destinations where VoLTE is available whether emergency calls are carried by the relevant network operator using VoLTE (V) or via a Circuit Switched (CS) technology.
